

"Board" changes to "Library" on hover and when you are in the library.

The Nav bar includes a link to a user's dropdown, the Library, and another button that brings up a config modal allowing the user to add new links to this navigation (ie, to their most used boards or whatever they like.)

Honey's Default Board

dog stats dog bzns animals dog tag treats

Refresh

A Widget

Widgets can be edited individually.

Hover over a widget to see an "edit" icon at the top right corner. Or click the edit-mode icon next to the Board's name to put everything into edit mode at once.

- + Add tags
- + Add notes
- + See what boards this widget is on
- + Add/remove this widget from my board(s)

Note: widgets themselves (data/ etc) are only editable by developers.

Puts this board into edit mode.

- + Widgets go into "hover mode"
- + Edit title
- + Add/remove tags

Maybe this is a drawer that goes away once a category is selected/ reappears on hover.

This setup box will disappear after setup. In its place will be a summary of what the gauge is monitoring. It can be re-accessed and modified at any time.

Set Threshold: ▼

Risk Score
Validation Action
Etc

For Time Period: ▼

Last 24 hours
Last 15 minutes
Last hour
Last week
Etc.

Filter By:

- ☐ Gateway
- ☐ Global Collect
 - ☐ World Pay

- ☐ Country
- ☐ US
 - ☐ India

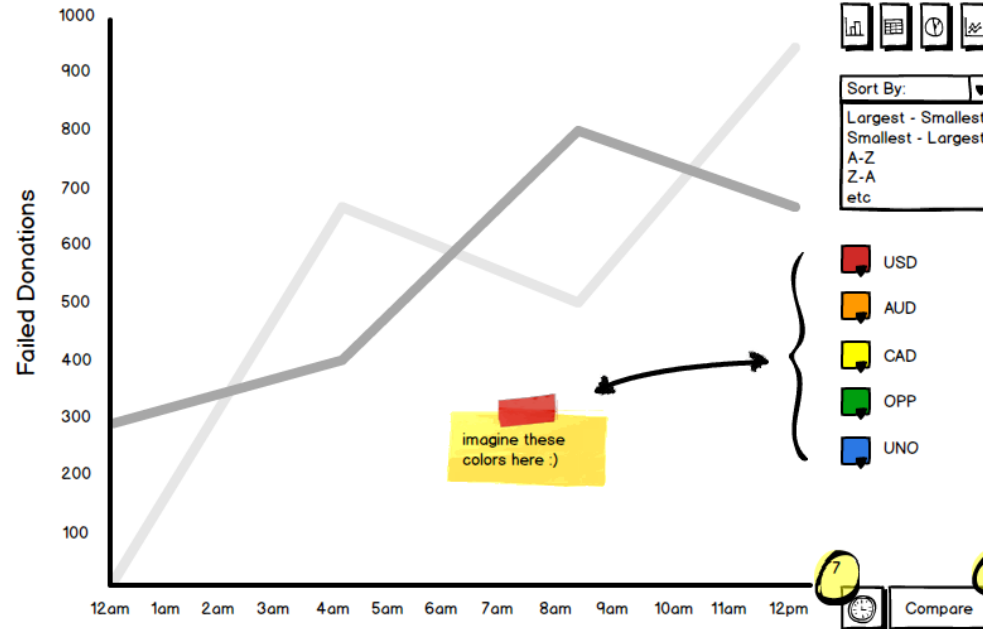

- ☐ Currency
- ☐ AUD

This would be a series of collapsible lists.

Slide two sliders to set the three spaces on the gauge.

12am - 12pm July 8, 2014

1:58PM 7/12/14

The legend, ordered as it's sorted. In this case we're looking at currencies.

imagine these
colors here :)

Each graph's data will be available in table format below. This will be collapsible.

[illegible]

Produces a modal or somesuch that allows user to select other timeframes to view the same data for alongside this chart. Will display selection either beside or on top.
